

slidebloc[®] ultra

Premium class residential and commercial construction category of use 3

The new standard ...

... simply for everyone!

10-year functional warranty

With quick connection
no grub screws

5 mm

Slim 5 mm rosettes

Return by two compression springs
made of high quality spring steel

Mounting on the drilled door
in just 40 seconds

K Keep
I it
S Simple
S Stupid

The KISS principle ...

describes the principle of how we at Qolibri® develop products and how we generally think and act as a company in all areas.

KISS „Keep it simple, Stupid!“ is to be understood here as a term that gives the statement an exaggeratedly flippant but well-meaning meaning: „Don't be so stupid as to rack your brains when you can just do it!“

The basic statement describes our endeavour as a company not to take unnecessary detours but to take the direct and therefore the shortest way in all areas.

The KISS principle demands the shortest path between task and solution.
